## DEAL INTERACTIVE: Virtual Data Room Services For M&A Due Diligence

Here's what a few of our financial and legal clients had to say:

"We have used your competitor's services, and frankly Deal Interactive is faster and easier to use, not to mention more cost-effective. Our clients will appreciate that."

"Your help desk is absurdly responsive—especially for 3 AM on a Saturday."

"Thanks again to you and your team. 'Best ever diligence process' is the only way to describe our experience."

Reduce M&A closing time, save on due diligence costs, and attract more qualified buyers across the globe.

### WHY DEAL INTERACTIVE?

A user-friendly design, combined with optimized technology for high-speed document transfers, make Deal Interactive virtual data rooms a simple, streamlined solution for the M&A process. Virtual data rooms (VDRs) enable you to securely host due diligence documents online for your transactions, significantly speeding up processes while extending your reach to the maximum number of potential buyers.

### KEY FEATURES

- **Security:** Your VDR is hosted in a SAS 70 Level II certified facility and is encrypted with multiple layers of security and audit controls, including:
  - Viewing restrictions for selected documents by individual users or groups
  - Dynamic watermarking to stamp user name and date/time
  - Optional click-through, user-definable confidentiality agreements
  - User and group security modification functions
- **Ease of Use:** Site deployment requires minimal training for users and administrators. Designed to reduce extra mouse-clicks and data-entry screens, Deal Interactive allows users to save time and minimize the risk of errors.
- **Convenient Organization:** Keep detailed logs sortable by document, user, date, organization, and document rank for simple, convenient tracking of activity.
- **24/7 Support:** Average response times of under three minutes.
