The TLS Solution to E-Discovery

At TransPerfect Legal Solutions (TLS), we meet our clients' needs for an efficient, cost-effective e-discovery plan by leveraging our knowledge of their operations, preferences, and requirements to create customized business solutions. Our skilled ESI specialists have a deep understanding of the nuances of the e-discovery process on both a local and global scale. From data collection to document production, TLS is the single solution for all of your e-discovery needs.

Our Service Offerings Include:

- **Data Acquisition and Forensics:** Our forensic team will meticulously identify and analyze the relevant digital evidence and forensically acquire the data using proven imaging procedures.
- **ESI Processing:** TLS utilizes industry-leading e-discovery tools that process data to match even the most complex specifications. Whether in-house or on-site, TLS can process and quickly turn around large amounts of data in over 100 languages.
- **Early Case Assessment:** Our state-of-the-art early case assessment tools significantly accelerate due diligence, providing attorneys with early visibility into case facts and rapid reviewing, tagging, and exporting capabilities.
- **Web-Based Hosting and Review:** TLS offers technological solutions that allow attorneys to host, review, and cull down large document sets for litigation, including our proprietary online review tool, Case Interactive.

Partnering With You

At TLS, our commitment to quality means that we take special care with your electronic evidence. We are trusted by every Global 100 and Am Law 200 firm, as well as virtually every Fortune 500 company. These organizations trust TLS because we focus on the time-tested principles of good business: high-quality services combined with superior client support.
