

TRANSPERFECT LEGAL SOLUTIONS

PATENT TRANSLATION: Patent Translations for Your Foreign Filing Needs

TLS is the translation partner of choice for many Fortune 500 patent departments as well as all of the Am Law 200 and Global 100 law firms.

In the last decade, we have translated over 50,000 patents and PCT applications for submission to patent offices around the world.

TLS is the only legal support services provider to be fully ISO 9001:2000 and EN 15038:2006-certified ensuring that our clients receive the most accurate translations—on every document, in any language.

“As always, TransPerfect provided excellent service. My account manager always keeps me up-to-date on the status of pending translations, which is of invaluable service to me since I am usually working with tight deadlines.”

— Alston + Bird LLP

Patent Translation Expertise

For 16 years, TLS has excelled in providing national phase filing translations for leading corporations and international law firms. We localize all patent documentation for filing with patent offices around the world, including the EPO, JPO, and USPTO. Here is just a sample of our value-added service offerings and credentials:

- Patent translation meets national, regional, and PCT specifications
- Money-saving translation memory technology cuts costs by 20%-40%
- Extensive experience with country-specific regulations for expedited filing
- Web-based portal technology for uploading and downloading translation projects, tracking requests, and receiving quotations
- Linguists with subject-area expertise to employ the most accurate terminology—in over 100 languages
- Industry-standard linguist certification process to select only the top level professionals
- Local staff based in all major cities

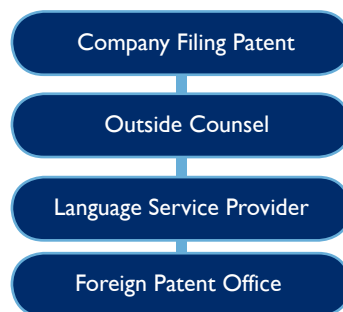

Partnering With You

Traditionally, when a patent needs to be filed with a foreign patent office, the corporate patent department retains foreign counsel who coordinates the translations and filing. The flaw in this process is that there are no mechanisms to control translation costs or maintain a single point of contact for all filing languages.

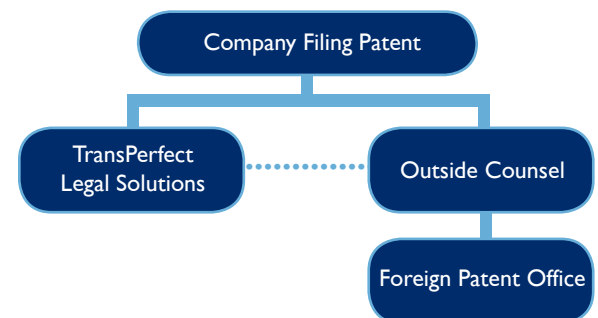

By utilizing TLS for your patent translations, we put the process back in your hands. Our dedicated patent translators and production teams will work directly with you and your foreign counsel to reduce costs both immediately and in the long term, and to ensure consistency of quality. Our money-saving translation memory tools and patent portal technology will help decrease expenses, while our highly-skilled, certified patent linguists, and strict quality management system will ensure high-quality results and the fastest turnaround times. Trust TLS with your next patent translation to get the first class results that you deserve.
